## BESSIE MAY BE A MURDERESS.

Real Estate Dealer Cochran, Whom She Shot, Is in a Critical Condition.

## WANTED TO BE RID OF HER.

He Left Her After Passing as Her Husband for Three Years.

## SHOT HIM DOWN IN A SALOON.

She Twice Tried to Kill Herself and Has Been in Bellevue as an Insane Woman.

Isaac C. Cochran, a real estate dealer, with an office at 401 Broadway, is in a critical condition in the Presbyterian Hospital from bullet wounds inflicted by Bessie Fairbanks, who for three years had lived with him as his wife.

Bessie shot Cochran last night while he sat drinking together in the back room of Henry Zimmer's saloon, 1150 Third avenue, corner of Sixty-seventh street.

The couple entered the saloon by the "family entrance" at 8:30 in the evening, and seated themselves at a little round table in a rear room. Cochran ordered beer. Herman Ellenbaer served them.

The waiter had hardly left the room when the shooting began.

when he was startled by the report of a pistol close behind him. This was followed by a fusillade of shots which, it was learned, followed him to the rear of the saloon, where he was called in, and two policemen were summoned from the sixty-seventh street station, half a block away.

They found Cochran on the floor, with a bullet wound in his chest, his hands pressed over his eyes, and blood gushing between his fingers. He was trembling and weeping, and over him, holding in her hand a 32-caliber revolver, the five chambers of which were empty.

Cochran, when asked to identify the shooter, said he could not see her, but that the voice he heard was that of his assailant. He was taken to the station house, where an ambulance surgeon, from the Presbyterian Hospital, found him.

The girl shot him as they sat together, the first bullet passing through his right eye and lodging in the wall, springing to his feet he pushed the table away and tried to escape from the room. He groped his way along the wall, blinded by the blood. She ran by him and, turning, fired again. He turned around, and as he reached the corner of the room she fired three times more, emptying the five chambers of the revolver. One ball struck him back of the right ear, and passing through his skull, lodged in the wall. A second bullet, missing him, shattered a mirror in the bathroom.

He was taken to the Presbyterian Hospital, and the girl was looked up in charge of Matron Barnes, to whom she told her story when she had grown more calm.

Bessie said her parents died 11 years ago. She was three years old when she came to New York and lived with her mother at 161 West Thirty-sixth street. Mrs. Russell introduced her to Cochran, who owned the house at 401 Broadway. They became close friends, and he induced her to live with him in a flat at 223 East Seventy-seventh street, where she lived for three years. Afterward she moved to a flat at 223 West Thirty-sixth street, and then to a house in a flat at 223 West Eighty-eighth street.

Of late Cochran had grown cold and neglectful. He accused her of unfaithfulness. Last Fall he left her and went to live with Mrs. Edwards at 223 East Seventy-seventh street. She could not find work, grew ill and discouraged. Yesterday she called on Cochran at

## BIG POLICE ARRESTS.

Many to Be Made, It Is Said, When the Grand Jury Reports.

Supt. Byrnes was in Col. Fellows's office for over two hours this afternoon, talking with Daniel G. Rollins, Special District Attorney for the Oyer and Terminer Grand Jury, and also with Col. Fellows.

The Superintendent, it was said, was there in connection with wholesale arrests in the Police Department, which he will have to make next Monday after the Oyer and Terminer Grand Jury has handed in its report.

When Byrnes came out of the office he declined to speak of the nature of his visit and went back to Headquarters.

## DETECTIVES' TURN NOW.

Effort to Have Moss, Whitney and Lemmon Indicted.

It was learned this afternoon that Detective Serges Jacob and McManus will shortly make an effort to have Ansel Dennett, Detectives Whitney and Lemmon and Lawyer Frank Moss indicted for conspiracy in connection with the ex-convict case.

This action, it is said, has been decided upon by those high in authority in the Police Department.

When Supt. Byrnes was asked about this, he declined to talk of the subject.

## PARKHURST VISITS POLICE.

The Great Reformer Calls at Headquarters This Morning.

The Rev. Dr. Charles H. Parkhurst visited Police Headquarters at 11:30 this morning. He spent about twenty minutes in conversation with Commissioner Andrews.

Dr. Parkhurst said that his visit to Commissioner Andrews had been purely a social one. He admitted that they discussed police matters, but would give no particulars of what passed between them.

Dr. Parkhurst said: "I like the style of Commissioner Andrews and the way he won his position. He reached it quite innocently, it appears, by being obnoxious to the police. With his military training he could not help seeing and commenting on the condition of things here. As I had known him chiefly through correspondence, I wished to know him personally."

As Dr. Parkhurst was coming through the corridor on the way from the Commissioner's office, he met Supt. Byrnes coming in the opposite direction. Each noticed the other but there was no sign of mutual recognition passed, and they moved by each other like two icebergs.

Commissioner Andrews said: "Dr. Parkhurst paid me a very pleasant call. He had never seen him before. We had a little talk, which naturally drifted into police matters. He approved of my plan

of reorganizing the management of the Police Department, and thought it was a step in the right direction. He said that something should be done immediately, and that the bad state of affairs should not last a day longer than could be helped. I was much pleased to meet the Doctor. This was the second visit made by the Doctor to Police Headquarters."

Mr. McIntyre Will Investigate.

Assistant District Attorney John P. McIntyre has been appointed to investigate the preliminary examination into the charged street disorder and he will in all probability have full charge of the case in the court.

## GRESHAM WOULD PAY MAY OFFER STAKES.

Willing To Again Negotiate on Claims of Sealers.

But Congress, He Tells Britain, Has Got to Act.

Canadians Want England to Advance Sum Asked.

LONDON, March 7.—Sir Richard Webster, member for the Isle of Wight Division of Hampshire and one of the British counsel before the Behring Sea Tribunal, in the House of Commons today questioned the Government in regard to the negotiations for a settlement with the United States of the British sealers' claims for seizure prior to the arbitration proceedings.

He pointed out that the award of the Tribunal was adverse to the United States, the only point unsettled being the amount of compensation, and that Canada had agreed to the amount she was willing to accept in full payment of her claims.

Sir Richard Webster asked whether, in view of the great and growing discontent in Canada, the Government proposes to take any and, if so, what steps to settle the dispute either by obtaining the payment by the United States of the agreed amount, or, if necessary, by arbitration.

In addition, Sir George Baden-Powell, Member of Parliament for the Kirkcaldy division of Liverpool, and formerly one of the British Commissioners to the Behring Sea Tribunal, asked what conditions were attached to the agreement to enable the award to be carried out in the event of any failure upon the part of the United States Congress.

Appropriate the necessary money, and, in the event of the United States Government not being in a position to pay the sum for some time to come, whether Her Majesty's Government would take steps to advance said sum to the sealers, many of whom were in serious want.

Sir Edward Grey, Parliamentary Secretary to the Foreign Office, replied that Canada had agreed to accept a lump sum of \$25,000 from the United States in settlement of all claims. But the money had not been paid.

No representations, however, had been received from Canada on the subject of the refusal of the American Congress to agree to the appropriation. The negotiations originally in progress respecting all claims of British subjects against the United States growing out of sealing troubles were suspended when the United States offered the payment of a lump sum.

The right to resume these negotiations was conditionally reserved, and when the House of Representatives rejected the proposed appropriation, the British Government instructed Sir Julian Pauncefote, the British Ambassador at Washington, to strongly urge the resumption of the negotiations upon the United States Secretary of State.

Gresham said that he was quite prepared to resume negotiations immediately. A convention, however, when signed, would have to be submitted to Congress for confirmation, and unless a special session of Congress was called, that could not be done until December next.

President of the Board of Agriculture Herbert was asked by A. F. Jeffreys, member for North Hampshire, whether his attention had been drawn to a statement concerning meat-packing at Chicago, and if he had reason to believe that, though a bullock might be condemned as diseased and unfit for food at Chicago, yet its tongue would be preserved and exported, and its fat was made into oleomargarine; and whether it was a fact that in many instances diseased meat condemned had been exported to England.

Mr. Jeffreys also asked whether the Government would endeavor to prevent such meat being used as food in England.

Mr. Herbert said he had read the statements referred to and proposed to make the necessary inquiries through the Foreign Office. He would also bring to the notice of the sanitary authorities here any information which reached him respecting danger to public health from imported food.

OTTAWA, Ont., March 7.—The Government today received a telegram from British Columbia members of the House of Commons, on behalf of sealers, urging that the Imperial Government be asked to advance a loan of \$125,000, the amount which the United States Congress refused to appropriate to pay the claims of Canadians whose vessels were seized.

The Government immediately cabled the request to England with a strong endorsement.
